The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status						
1) Responsive to communication(s) filed on 22 November 2004.						
2a)☐ This action is FINAL . 2b)☒ This	This action is FINAL . 2b)⊠ This action is non-final.					
3)☐ Since this application is in condition for allowan	☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is					
closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims						
 4) Claim(s) 1 and 5 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) 1 and 5 is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s) are subject to restriction and/or election requirement. 						
Application Papers						
9) The specification is objected to by the Examiner. 10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.						
Priority under 35 U.S.C. § 119						
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 						
Attachment(s)						
1) Notice of References Cited (PTO-892) 2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date 4) Interview Summary (PTO-413) Paper No(s)/Mail Date 5) Notice of Informal Patent Application (PTO-152) 6) Other:

DETAILED ACTION

Claims 1 and 5 are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 22, 2004 has been entered.

Response to Amendment

- 2. The declaration filed under 37 CFR 1.132 filed November 22, 2004 is sufficient to overcome the rejection of claims 1 and 5 based upon WO 95/33787, as evidenced by Enomoto et al., US 5,935,700, in view of Yoneda et al, US 5,316,714.
- 3. The issues regarding the newly discovered reference(s) remain. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 5. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Lin et al, US 5,316,854, as evidenced by Ching, US 4,373,060. Lin et al (example VI)

discloses the combination Ludox LS (DuPont), acetic acid, and γ -glycidolpropyl trimethoxysilane (A-187). Ludox LS is a 30 % by weight of silica having a low Na₂O content. Said composition reads on applicants claimed compositions as represented by the evidence of record.

Ching (column 4, line 66, to column 5, line 14) disclose Ludox LS (DuPont) has a low sodium content (Low Sodium) of 0.35% calculated as Na₂O, a particle size of 10 to 30 millimicrons (equal 10 to 30 nanometers, nm). A Na₂O of 0.35 % by weight equals a waeight ratio of silica to Na₂O of 285.7 silica/ Na₂O. Said ratio reads on that claimed.

The dispersion media is an aqueous solution. Instant Table 2 on page 24 specifically sets forth the dielectric constant for water as 77, which reads on the instant claimed range of 10 to 85. See instant Table 1 for the molecular polarizability of γ -glycidolpropyl trimethoxysilane (A-187), which reads on those claimed. Applicants (instant specification at page 9, line 5 et seq) specifically include organic acids in the compositions.

Applicants product-by-process limitations do not distinguish the compositions, which otherwise read on the Lin et al reference as evidenced by Ching. Attention is directed to MPEP 2113.

The limitation of claim 5 is clearly present in the Lin et al reference since the compositions have ionic components, i.e., acetic acid, present.

Response to Arguments

6. Applicant's arguments with respect to claims 1 and 5 have been considered but are most in view of the new ground(s) of rejection.

Art Unit: 1712

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel S. Metzmaier whose telephone number is (571) 272-1089. The examiner can normally be reached on 9:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy P. Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
